RE: No Funley's Delicious Products are affected by the Peanut Butter recall.

To our valued Funley's Family members-

This statement is to clarify that no products manufactured for or by Funley's Delicious®, including but not limited to Peanut Butter Stix in the Mud®, are affected by the recent recall (including the expanded recall) related to peanut butter.

Additionally, all raw material suppliers for Funley's Delicious® and their partners are required to issue a Certificate of Analysis upon receipt which includes pathogen testing results when applicable.

Funley's Delicious® wants to assure all its consumers and retail partners that all of our peanut butter products are completely safe to consume and enjoy.

Thank you,

Funley's Delicious
